Guangdong suke pate sanitary technology co., ltd was established in 2004, located in Chaozhou City, which has more than 22 years experience in manufacturing, exporting and designing high quality various types of wash basins (counter top basin / cabinet basin / undermount basin / wall-mounted basin / glass basin / concrete basin), toilets, bidets, furniture cabinets, and smart mirrors.

PATE factories cover about 240,000 square meters and we have 500 employees.

We own 6 factories that adopted 10 sets advanced computerized control shuttle kilns to ensure stable temperature to fire high quality ceramics; Imported 30 automatic high-pressure grouting production equipment to ensure efficient production capacity and high quality products. Besides, we also use automatic rolling machines to produce ceramic basins with ultra-slim edge and smooth surface.

We export to Europe, Australia, South-America, North-America and Middle-east Countries and so on.

We also do OEM and ODM for many famous brands from oversea and domestic. There are over 50% clients having 8-20 years cooperation relationships with us and giving us highly praise.

"High quality ,High Service,High production " is always our original aspiration and business purpose .
